Rescue Operations O U R 's core competency is extracting children who are being exploited for the purposes of sex slavery. Our business model is successful because of key partnerships we've made with local law enforcement and other NGOs around the world. This helps to build an international partnership of law enforcement agencies, non-government organizations and industry to protect children from sexual exploitation. O U R has partnered to help rescue more than 320 children to date and ensure more than 80 traffickers are no longer able to victimize children. Identifying, locating and helping children at risk and holding perpetrators appropriately to account are components of our mission statement. Recovery Services O U R partners with rehabilitation and recovery experts in the countries where we operate. We believe the rescue is not fully complete until victims are able to fully recover leveraging the critical care these partners provide. We will always provide the support and resources needed to help children at risk and rescue hundreds of children around the world from sexual abuse. Technology and Training O U R is working with government officials including the Internet Crimes Against Children TaskForce and industry leaders to develop technology that will track child pornographers as they travel across borders. Along with protecting children from online child abuse and making the internet a safer place, O U R is also concerned that law enforcement currently lack the tools and training they need to leverage technology to hold perpetrators accountable and preempt the atrocities that occur from trafficking. We have already trained numerous agencies in multiple U.S. states and foreign countries including Homeland Security agents on existing tools and have partnered with them to leverage technology to bring domestic and international offenders to justice.
